Conveniently control your electronic devices and appliances anywhere, anytime, making it an ideal solution for your working or living spaces. Our smart Wi-Fi power boards are easy to set up and give you peace of mind by allowing you to remotely manage your favourite devices and schedule them to suit your lifestyle, even if you're not at home.

- Supports 12 device/appliances simultaneously with 6 independently controllable smart outlets, 2 concurrently controlled USB-A charging ports and 2 independently controlled USB-C charging port.
- Surge protection shields sensitive electronics and appliances from sudden power surges that can occur during thunderstorms.
- Control via app and/or voice control through BrilliantSmart app, Amazon Alexa or Google Assistant from anywhere.
- Create automations for your home with 24 hour timer with schedule and countdown functionality.
- Charge devices with the included 2 x USB-A and/or 2 x USB-C chargers.
- Compatible with BrilliantSmart devices via automation & IFTTT.
- 240VAC / 10A, Australian and New Zealand standards approved.

APPLICATIONS

- Plug into a 240V power outlet and turn on or off any home device
- Create schedules & timing to automate your home
- Remotely control from anywhere using your smart phone.

SMART WiFi CANNES POWERBOARD

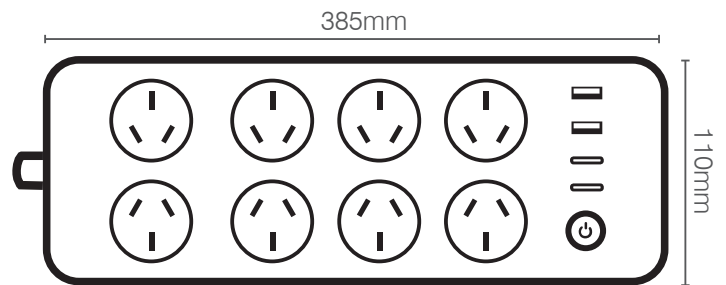

WITH USB-A & USB-C CHARGERS
