

# SMART WiFi OUTDOOR DOUBLE PLUG

Designed for Outdoor use  
in any weather condition\*

Smartphone and outdoor power outlet are not included

Plug into any 220V-240V AC 50Hz weather resistant power outlet to control the connected devices manually or through the BrilliantSmart app.

- Suitable for use with most Australian outdoor powerpoints (\*Outdoor use only with an IP rated SAA approved outdoor power outlet with minimum 30°deg decline socket).
- Independent control for each socket.
- Automate your home and monitor electricity usage.
- Compatible with BrilliantSmart devices via automation & IFTTT.
- Works with other BrilliantSmart devices via automation.

## APPLICATIONS

- Create schedules so that the outdoor plug switches on at specific times of the day.
- Create in app automations to work with other smart products. For example, when a smart sensor light is triggered, turn on the outdoor plug, which may have a separate light connected.
- Create automations based on weather or location. For example when it reaches a certain temperature, turn on the outdoor plug.
