Installation

BEFORE INSTALLATION, PLEASE CHECK THAT THE LOCATION OF THE SMART SIREN IS WITHIN RANGE OF YOUR HOME WIFI AND SIGNAL IS STRONG.

IT IS RECOMMENDED THAT YOU ENSURE THE ACCESSORIES ARE ALL IN WORKING ORDER AND CONNECTED/PAIRED TO THE SMART WIFI SIREN BEFORE INSTALLATION. PLEASE ENSURE THE PLASTIC BATTERY TAB IS REMOVED BEFORE USE.

Ensure the triangle on the sensor and magnet are aligned when installed

---

1. The **Smart WiFi Siren** can be placed anywhere in the house connected via USB to a computer or to a powerpoint using plug & cord provided.

2. Plug the micro USB plug into the Smart WiFi Siren micro USB port, then plug the USB plug into the AC/DC power adaptor. Ensure the plugs are firm in place. The Smart WiFi Siren comes complete with a battery. Plug in the AC/DC power adaptor into the power outlet.

3. To install, rotate (anti-clockwise) the outer back plate of the Smart siren to unlock 🔓 and remove. Screw the back plate in place. Push the siren onto the back plate and rotate clockwise to lock 🔒.

Tamper alarm

Installation

4. The **magnetic reed switch** can be installed on any interior window or interior door with the 3M double sided tape. The gap between the sensor and magnet (when installed) should be less than 10mm.

5. After installation, the red indicator light on the sensor comes on when the door/window is opened. When the battery is low the indicator light will flash when it is triggered and should be changed as soon as possible.

---

6. The PIR sensor is provided with a bracket and screws and plugs, to attach to a wall or ceiling.

7. Locate the desired location and mark the 2 screw holes by using the bracket as a guide.

8. After installing the bracket, align the PIR detector mounting slot with the bracket and firmly slide in the PIR detector. Adjust the PIR detector accordingly.

9. The **doorbell** can be installed on any door with 3M double sided tape or screwed into position, or use as a portable bell. Before installation check the doorbell is within range of the siren. Press the doorbell to check the siren sounds a chime.

10. Remove the rear cover from the main unit and used it as a guide to mark 2 screw holes on the desired location. Screw the cover into position and press the doorbell back onto the cover.

Go to www.brilliantsmart.com.au for full instructions and features.

Connect to your WiFi

Ensure your mobile phone is connected to your 2.4GHz WiFi network.

Your mobile phone and your smart device needs to be within good signal strength range of your WiFi router.

Download the BrilliantSmart App

Please download the free BrilliantSmart app from the App store or Google Play store, or scan the QR code below.

## Register the BrilliantSmart App

Open the BrilliantSmart app.

For new users, register a new account or if existing user, login with your user name and password.
Configure your BrilliantSmart App

Setting up your Home
You can setup multiple homes or locations. Click **'Add Home'** button. Or Click on **'Home'** top left if you are adding or modifying details then **'Home Management'** to setup your home(s), add or rename rooms and share devices.

Add your Smart Device to your App

1. Turn on the power and your smart siren will ready for WiFi pairing. The LED indicator light beeps once then will start blinking. If the LED indicator light is not blinking then you need to reset the device to pairing mode by inserting the reset pin into the reset hole and hold the reset pin for about 5 seconds or until the red LED indicator light blink rapidly. Remove the reset pin. Wait for 3 to 5 seconds the red LED indicator light will start blinking.

2. Open the BrilliantSmart App, tap '**Add Device**' (if empty room) or '**+**' to add your Smart WiFi Siren.

3. Select **'Connector WiFi'** in the list of devices. If sensor LED indicator is blinking rapidly then press **'Confirm indicator rapidly blink'.**

4. Enter your home WiFi password.

Connection will now begin.
