

Your smart camera is now ready for you to personalise.

- If smart camera setup is unsuccessful click 'How to set the indicator to flash quickly or with a prompt tone' and follow the steps to reset smart camera.
- Select 'Otherwise' in top right corner.
- Select 'SmartConfig' then go to 'BrilliantSmart App Assistance'.

BrilliantSmart App Assistance

For BrilliantSmart app assistance click 'Profile' then 'FAQ'. This should answer any queries you have.

If this doesn't solve your problem then click 'Customer Service', select 'New' and click on the device then type in your query.

You should receive a response within 24 hours.

For further Troubleshooting or to connect via AP Mode go to www.brilliantsmart.com.au.

Other BrilliantSmart functions

Live View

Allows user to view live streaming anywhere in the world. (Internet connection required)

Alarm

This is to set Motion Detection Settings. Once configured recordings will start automatically.

Recording and Playback from microSD

After the smart camera is setup with the microSD card installed and motion sensor configured in the BrilliantSmart app, the smart camera will automatically record when motion is detected.

The user is then able to view recordings saved on microSD memory card using BrilliantSmart app. The microSD card can be removed and viewed on a computer or device using a microSD card adaptor and internal/external card reader if required. Internet connection required. **The microSD card/adaptor/reader are not included.**

Speak

Press the microphone icon to speak and transmit your voice to the camera's speaker. Ensure microphone is set to off to hear sound from the camera.

Record via App

User is able to record voice and images on their smart phone while viewing in BrilliantSmart app. Recordings to phone will automatically stop when app is turned off or phone screen is timed out.

Screenshot

User is able to take a photo of live image from smart camera.

Warranty

Brilliant Lighting warrants this product against defects in manufacture and workmanship for a period of 12 months from date of purchase. Warranty does not include damage or loss arising from incorrect installation, operation or maintenance of this product, damage caused through modification, or incorrect installation.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if goods fail to be of acceptable quality and the failure does not amount to a major failure.

Any claim under this warranty must be made within 12 months of the date of purchase of the product.

Refer to our website brilliantlighting.com.au for terms and conditions and warranty claims.

INSTALLATION

Make sure power is off at power socket.

Unpack camera from box.

Check all content present – power adaptor, micro USB cable. **(MicroSD card not included.)**

Attach power adaptor into micro USB adaptor.

Attach micro USB into back of camera into the micro USB socket.

Insert a microSD card (not included) up to 32gb into smart camera microSD slot.

Plug power adaptor into power socket.

Download BrilliantSmart app.

Follow guide.

Connect to your WiFi

Ensure your mobile phone is connected to your 2.4GHz WiFi network.

Your mobile phone and your smart device needs to be within good signal strength range of your WiFi router. (Refer to your router specifications for max range.)

Download the BrilliantSmart App

Please download the free BrilliantSmart app from the App store or Google Play store, or scan the QR code below.

Register the BrilliantSmart App

Open the BrilliantSmart app.

For new users, register a new account or if existing user, login with your user name and password.

Configure your BrilliantSmart App

Setting up your Home

You can setup multiple homes or locations. Click **'Add Home'** button. Or Click on **'Home'** top left if you are adding or modifying details then **'Home Management'** to setup your home(s), add or rename rooms and share devices.

Add your Smart Device to your App

1. Set up the smart camera. Do not turn on.
2. Open the BrilliantSmart App, tap **'Add Device'** (if empty room) or **'+'** to add your Smart Globe.
3. Select **'Smart Camera'** in the list of devices.
4. Turn on power adaptor at power outlet.
5. After 15 seconds your Smart Camera will now say **'Camera Start'** then **'Please Config Network'**
6. Power indicator on camera will now start to rapidly blink.

If Smart Camera is blinking rapidly then press **'Confirm light blinks rapidly'**. Continue following connection guide

7. Enter your WiFi password
8. Once connected to WiFi scan **'QR Code'** with Smart Camera. Hold **'QR Code'** approx. 20 cm in front, facing the Smart Camera.

9. Wait for **'Camera Configured'** then select **'I Heard The Beep'**

Smart Camera will now start connecting to App.
